WANTED FOR CONSPIRACY

ROBERT CARR

This man is guilty of conspiring to kill and maim the public at large by perpetuating unsafe conditions in workplaces;
conspiring to terrorize and intimidate workers by threatening them with legal punishments if they go on strike;
conspiring to defraud the people out of the fruits of their labour to the profit of a small group of capitalists who "own" almost everything;
conspiring to extort money from the poor and give it to the rich;
conspiring to bribe and blackmail trade union officials so that they no longer even 'represent' the workers, but become policemen for the bosses;
conspiring to distort the truth by spouting claptrap about 'productivity', 'industrial relations', 'anarchy' and the 'national interest';
conspiring with Henry Ford and other foreign agitators to imprison millions of people in the life of boredom, frustration, isolation and humiliation which the capitalist system condemns them to;

CARR conspired to commit these crimes against the people with the members of a terrorist group calling itself the 'CABINET'.

These men are dangerous. If you see any of them, deal with them as you think fit.

WHAT THEY DON'T SAY ABOUT THE COMMON MARKET!

Some people complain that membership of the Common Market would cost the British housewife more.

What they don't say is how much greater will be the prospects for her husband to earn more – the economic advantages leading to greater wealth for Britain and more money in wage packets.

Some people say the cost of food will rise substantially if Britain joins. What they don't say is that the additional rise in living costs is likely to be under $\frac{1}{2}$ per cent a year for five years.

Some people say that membership would make life tough on families. What they don't say is that standards of living in *all* Common Market countries have been rising much faster than in Britain – in some cases, almost three times as fast.

With his Industry Act and reflationary budgets, heath seemed to be back to Keynesianism. He was accused of doing a number of U turns.

Anthony Seldon (1996) insisted that Heath's government between 1970 and 1974 had carried through « No fewer than four U turns », with serious political consequences for his supporters and his opponents.

26 May 1972 SALT I Strategic Arms Limitation Treaty

Strategic Arms Limitation Treaty

May 26, 1972 – **Moscow** – Soviet President Leonid Brezhnev and U.S. President Richard Nixon, meeting in Moscow, sign the **Strategic Arms Limitation Talks (SALT)** agreements. At the time, these agreements were the most far-reaching attempts to control nuclear weapons ever. A number of agreed statements were also made. **This helped improve relations between the United States and the USSR.** **SALT I** froze the number of strategic ballistic missile launchers at existing levels and provided for the addition of new submarine-launched ballistic missile (SLBM) launchers only after the same number of older intercontinental ballistic missile (ICBM) and SLBM launchers had been dismantled. WAYS OF SEEING

JOHN BERGER

Seeing comes before words. The child looks and recognizes before it can speak.

But there is also another sense in which seeing comes before words. It is seeing which establishes our place in the surrounding world; we explain that world with words, but words can never undo the fact that we are surrounded by it. The relation between what we see and what we know is never settled.

The Surrealist painter Magritte commented on this always-present gap between words and seeing in a painting called *The Key of Dreams*.

The way we see things is affected by what we
